Junior .NET Developer focused on creating modern web solutions. I am a curious problem solver, detail-oriented, and adaptable in my coding, always striving to write clean and efficient code. Motivated to constantly learn and grow to contribute to exciting projects

Education

Graduated 2024
Web Development

Graduated 2020
Construction and Civil Engineering

Skills

- C#
- Datalagring/SQL
- HTML & CSS
- JavaScript
- React
- ASP.NET Core
- Web API
- Agil systemutveckling
- CMS
- Microservices

Languages

Thai **Swedish** **English**

Expertise

.NET Develope

frontend-utveckling med React

Experience

Avensia **January 8 - April 12, 2024**

Internship as a Developer (LIA-2)

During my internship at Avensia, I developed an SEO tool as an add-on to the Nitro system. The tool analyzes websites and provides results on areas that need improvement. It also stores data in SQL, including the five most recent analyses for follow-up.

Rocketlabs **September 4 - October 13, 2023**

Internship as a Developer (LIA-1)

During my time at Rocketlabs, I developed a full-stack SEO tool with a focus on data visualization. I used PHP Laravel for the backend and Chart.js to create graphs. The project provided me with experience in both frontend and backend development.
